Collaboration Proposal for Commissioned Linguistic Support & Translation Assistance

My name is Vitaly Lyahovich. I'm a certified and well-qualified professional translator, interpreter and proofreader, a native Russian/Belarusian speaker. I'm fully proficient in English, Russian, French, Belarusian and Italian with expertise in Finance, Economy, Law, Engineering and Oil & Gas. I offer customized solutions in translation, interpretation, localization, sworn translation, editing, proofreading and a number of other business solutions.

For almost 10 years in translation I have developed considerable experience in the translation field which allows me to offer my Clients tailor-made and turn-key solutions in their translation and localization projects due to my narrow language specialization, constant innovation through cutting-edge technology in translation and localization tools (CAT tools) and a range of additional services (DTP, formatting, content writing, etc).

In my work I do everything to ensure fast turnaround, tight deadlines, culturally sensitive and competitively priced one-stop translation service. In each particular case I study thoroughly the project and its specifics and offer a Client a customized solution that suits his exact demands and requirements.

I have successful experience in working with big engineering companies and would like to demonstrate you my credibility and reliability to become a trusted Service Provider for you.

Visit my web page www.languagespecialist.weebly.com to learn about my skills and expertise, a range of services I offer, discounts and rebates. There you can view some translation samples and my detailed CV. Upon request I can provide referrals to prove my experience.

I shall be glad to collaborate with you and meet your deadline.

Respectfully yours,
Vitaly Lyahovich
